

ZimVie Announces the Launch of Azure™ Multi-Platform Product Solutions

October 17, 2023

New offerings expand ZimVie's dental solutions for lab customers, enhancing selection and broadening the reach of the ZimVie portfolio

WESTMINSTER, Colo., Oct. 17, 2023 (GLOBE NEWSWIRE) -- ZimVie Inc. (Nasdaq: ZIMV), a global life sciences leader in the dental and spine markets, today announced the recent launch of Azure™ Multi-Platform Product Solutions, a comprehensive selection of restorative components to effectively cater to the dental laboratory market. These new offerings are currently available in the United States and select markets in Europe, with future geographic expansion planned.

This first launch in the Azure Multi-Platform Product Solutions category consists of 13 dental laboratory-focused prosthetic and restorative solutions designed to integrate into digital workflows. Dental laboratories now have the flexibility to select the right solution for every case, all without sacrificing the quality customers expect, the profitability laboratories demand, and the customer support they deserve. This broadens ZimVie's presence in patient-specific restorative dentistry, creating a holistic product portfolio that meets dental laboratories' needs, as a one-stop shop, for nearly everything related to tooth replacement.

"We are continuing to innovate and build on our already robust list of product offerings to expand ZimVie dental products into the hands of more dental professionals," said Indraneel Kanaglekar, SVP and President of ZimVie Dental. "Our Azure Multi-Platform Product Solutions provide greater optionality for customers and complement our existing products to meet the specific needs we see among dental labs."
